ande has been attached to the composition of trade in our favor and drew money into the the committee on ways and means, on the supposition that its make up would be an index to ment to resume species payments. The rich Probably this supposit on will be realized. The committee as it stands may be taken to reprethe democratic members of the house are ardent presectionists, and in the manufacturing states doctrina as the republican party is.

A late number of the New York Independent sins a brisi article on Morm mism by Senator Edmunds. He does not believe in arbitrary measures, but this ke that the evil must be overcome "by precesses in parently sign and by means that will gather into the opposition to it all the non-polygamous Mormons." He opposes the project for putting the corretory into the hands of a commission, on the grounds that such a sdep would be unconstitutional, im-practicable, devolutionary and fruitless, except in solidifying the class testing of the Mormons and strangthaning the hierarchy. He proposes instead enforced publically for every appoies of marria to ceremony, improvements in the system of admiristering justice and the abulition of winds suffrage, which has proved one of the strongest props of the odious system, and deaches the obserful conclusion that 'il we go almly and steadily former i, preserving our self possession, we shall eradicate the exit of

FOR THE PERIORITY OF THE B

DECISION IN A PATENT CASE. United States Circuit Court, D strict of Oregon. Priffsy, December 24, 1883.

not the transmitten de mujus-foi muist be specially pleaded.

EAI Y.

This is an action "on the case." brought by the plaint of another 90019 of the R. S., the recover damagde from the defendants for the infringement of a patient for an improved method of wentiletting water closets, nambered 174,926.

The defendants plead the general issue "host valid "hand give notice of the specialization which they expect to prove thereunder of the valid "and sive notice of the R. S., as follows: That said invention was not invertible produced, by the patentes and he is not the original invention therefore and he is not the original invention therefore and he is not the original invention therefore and he is not the original invention by a patential of the special or the special produced, by the patential on it at, a like apparatus or system was previously discribed, or known and used.

The antwer also contains three special pleas, to the effect:

ne effect:

1) The plaintiffs have never marked their control with the world Platented. "together invent on with the word "battened," logether with the carried by patent; (2). The appurishes overed by the patent, and no invention when prilliced" by the patenter; (3). The solid invention and system of ventilation was not used. "when produced by the patenters,"

The said loves the and system of ventilation was not midial" when procluded by the patentee or as any time.

The plaintiffs move to both the logical procedure, and because they are not ventiled as provided in \$19 of the Oregon code of civil procedure; and because they are uniproperly pleaded with the general issue; and art surplussage and friedom.

This motion is based upon the assumption that index 918 of the \$1.85, the ploudings in this action, beyond the \$100 of the \$1.85, are give erood by the coal law. Said \$914, it being \$5.00 of the \$1.85, are give erood by the coal law. Said \$914, it being \$5.00 of the \$1.85, are give erood by the coal law. Said \$914, it being \$5.00 of the \$1.85, are give erood by the coal law. Said \$914, it being \$6.00 of the \$1.85, are give erood by the coal law. Said \$914, it being \$6.00 of the \$1.85, are give erood by the coal law. Said \$914, it being \$6.00 of the \$1.85, are give erood by the coalson of the contrained district pour \$1.85, and conform as near as have below the practice, plendings and forms and modes of proceeding, existing at the timb in fillse causes? In the courts of twe taste.

In Nudd \$7 Burrows, \$11.00, \$1.00, \$1.00 of the court, \$1.00 of the practice of the practice functions; but is decharge \$6 in superset functions; but is \$1.00 of the court, \$1.00 of the court of the same lessain; "which had become discortant by transport of the same elocation apolls, e.e., [17, 10, v. 10, st., \$3.00 of the \$1.00 of the court of the same lessain; "which had be come discortant by transport of the same effect, ere to dimagnles, e.e., [17, 10, v. 10, st., \$3.00 of the \$1.00 of the court of the same lessain; "which had become discortant by transport of the same effect, ere to dimagnles, e.e., [17, 10, v. 10, st., \$3.00 of the \$1.00 of t
